

We discover new artists; we select artworks  
and we carefully match art to our clients.  
Art Forward is an ongoing community that  
believes in the 'universal messages' of art.

# About

---

Art Forward is a contemporary fine art management company set up in 2014 in the light of selecting new meaningful artworks. Art Forward represents artists from a young and conscious generation who cultivate art as pastime or investment. We believe creating such a community will bring a variety of benefits for the community itself and will have a positive impact on other clusters of the wider society. Experience the joy of collecting and indulging in new art with a view of potential returns in the future. Art Forward is a creative real, a home to exhibitions, educational gallery programs, and a platform for investment.

# Artists

---

Art Forward explores & represents 21st century contemporary visual fine artists. We operate a shared center for emerging artists to coordinate a real and virtual local hub by establishing and maintaining a specific artist-support system.

Our artist mission is to choose fresh talents early in their careers and encourage their artistic development with a circle of appearances. Each selected artist shall represent a 'universal message'. That is why we believe we stand for quality messages in order to select the meaningful few.

NO MEMBER CAN BE ALONE

>>

# Community

Art Forward is an organic community where artists, managers and investors all participate as a whole to promote relationships between artists and the art-loving public. We are committed for the emergence of an art conscious generation. That is why Art Forward embeds contemporary art educational programmes, events, and social projects where learners receive a more philosophical insight about judging methodology of artworks.

Membership >>

Art Forward runs a membership programme, which is designed to care for long-lasting relationship with our clients. The membership provides each member with the opportunity to receive personalized information and regular update of our events. In most cases our members enjoy preference and discount over non-members when it comes to first hand event invitations and specialized art oriented programmes (e.g. gastro events, special private art performances)

Internship >>

Art Forward offers apprenticeship programmes for students of junior college level or above, graduates, and post-graduates in arts. The objective is to provide training and mentoring to the interns in arts management, and organizing exhibitions.

Volunteer >>

Our volunteers are important members of the Art Forward community and they enjoy preference among internship applicants. Volunteers are welcome to assist us in our day-to-day operation as well as in the arrangements of events and exhibitions.

Kids >>

'Kids Forward' is sparking creativity and the love of art. Children are the best natural philosophers who are eager and open to understand the world around them. This programme is a special curriculum for kids in order to experience the joy of understanding and creating art. We help kids improve their 'cognitive skills', such as logical and critical thinking, and guide them to evaluate and realize their creative self-awareness. Kids Forward courses enhance confidence of kids in their creative process, in their instincts, and help them to maintain curiosity in general which is the essential element of learning.

LOVE WHAT YOU DO, DO WHAT YOU LOVE

# Projects

## Art Forward Show No. I. >>

Art Forward Show No. I. was a pop-up exhibition which lasted for three weeks at the popular downtown area of Budapest. Recently the curator team visited the University of Fine Arts of Budapest to scout new talent among hundreds of students. 25 young artists were selected to present their artworks for the first time to the public. We were delighted to collaborate with such a diverse group of students and gain an insight into their early age artistic careers.

## Roundtable Exhibition >>

This project could not have come to existence without the cooperation of the gastro team, 'Konyhakör'. The concept of the Roundtable Exhibition was to create an "insider" gallery show for only the invited members. The private exhibition alongside with the gastro dinner was operated by a curator who shares insider information about the artists and the represented artworks.

## 'INSIDE' by Monika Karandi >>

„I paint what surrounds me or visions what catches my eyes". The first solo exhibition of Monika Karandi was mainly built upon her diploma artworks. "I like to paint different living areas, classic reality interiors, where our everyday lives happen." Monika Karandi likes to readapt geometric forms with organic shapes and to mix different materials like sand or textile with paint.

## Rum Project X Secret Room >>

This promotional project was the combination of the Video artwork of Csaba Taczi and the lighting installations set up in Secret room. The video art presentation was followed by an electronic party.

## Art Project >>

Art Project was an urban contemporary mini art festival. It took place in the under construction rooms of the downtown Hotel Rum. 79 artists participated on the project, exhibiting more than 267 artworks around all the 6 floors and 39 rooms of the empty Hotel. Art Project was all about paintings, sculptures, photos, video arts, installations, fashion art, performance art, new media art, films, roundtable discussions, concerts, gastro, art parties and guided tours for 4 days to the art loving public.

## Artfwd X Carbonfools >>

"This charitable wall painting project was all about spending a fun afternoon together". Colourful street art was made by the band Carbonfools with the cooperation of our artists for the house of the Down Foundation in Hungary. The creative art piece contains true love, expressive communication and an important way of being, sharing and caring through the power of art. Our creative team welcomes all kinds of non-profit but community art based movements.
